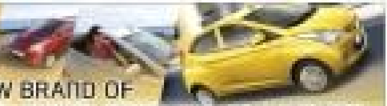
DRIVE ON



TO A NEW BRAND OF
STYLE AND PERFORMANCE

Hyundai's got something new—in a big way, neatly packaged in a friendly car that packs a punch in performance. It's got the looks, the drive, and the personality to go with your kind of driving lifestyle—meant not to be ignored, even with its [illegible] frame. Meet the EON!

As the newest 5-door hatchback of Hyundai in the sub-compact car category, the EON is a looker with its European-inspired design that evokes a hip and youthful vibe. Up front, the EON immediately catches your attention with its distinct hexagonal grille, complemented by clear, swept back headlamps. Flowing character lines and a gently sloping profile add a sportier elegance to its friendly build. The rear likewise makes a fine impression with stylish [illegible] shaped tail lights and rear spoiler with a High-Mount Stop Lamp (HMSL).

Under the hood, an interestingly compact yet powerful engine adds even more "oomph" to this cool hatchback. The EON has an Epsilon 0.8-liter MPI engine that churns maximum power of 56 ps at 5,500 rpm and maximum torque of 7.6 kg-m at 4,000 rpm, fit for everyday driving around the metro. Besides giving ample boost of power, the EON is also remarkable in fuel economy, as it delivers best-in-class fuel-efficiency of 28.3 km/L during long drive based on a fuel economy test conducted by Hyundai Motor Company (HMC), thanks to its lightweight engine design and smooth engine operation. The EON's Epsilon engine incorporates several significant weight-saving technologies such as a plastic intake manifold and a plastic head cover which are made of highly durable engineering plastics, designed to withstand hot temperatures. The engine's tappet and piston rings are treated with special low friction coatings, which help reduce internal losses due to friction, thereby enhancing fuel efficiency. But don't think that the EON is all just about saving fuel. It's a thrill to drive the EON, with its performance-boosting intake port that has been optimized to deliver better combustion.

Mated to a 5-speed Manual Transmission, the EON's Epsilon engine delivers even better fuel-saving performance with smoother gearshift control.

Aside from style and performance, the EON's got a lot more in store for you, like Motor Driven Power Steering (MDPS), integrated audio system with built-in CD and MP3 player, plus Auxiliary input and USB slot, driver side airbag, welcoming lights for the instrument panel, and a tach meter.

Want to know more about the EON? Visit your nearest authorized Hyundai dealer today and check out all the features that can make you [illegible] with Hyundai's newest hot hatch!

I'm ready for anything. I'm at the top of my game.

Drive on to the top of fuel savings with Hyundai's game-changing engine.
